

11/11/2025

Dear Board of Control,

On September 5, 2025, we bid out the Schneider Park Pedestrian Bridge Project. This project was advertised on BidExpress which is one of the nation's leading websites for public bid solicitations.

On September 19, 2025, I held a contractor walk through at City Hall & then we walked to the site where the Bridge will connect on both the Columbus and Bexley sides. We had five contractors attend the pre-bid walkthrough. After the pre-bid walkthrough, I received numerous questions for scope clarification regarding the bid documents, and these questions were all answered in 3 different addendum packages that were posted to BidExpress for all bidders' consumption.

On October 15, 2025, the bid deadline, three bids were received. They were as follows:

<u>Pedestrian Bridge to Schneider Park Bridge Bid Results</u>					
		<u>Base Bid</u>	<u>Alt. 1</u>	<u>Total</u>	
1)	Double Z Construction	\$ 1,319,897.60	\$ 352,000.00	\$ 1,671,897.60	
2)	Axis Civil Construction, LLC	\$ 1,389,859.60	\$ 130,240.00	\$ 1,520,099.60	
3)	Complete General Construction Co.	\$ 1,856,083.50	\$ 8,800.00	\$ 1,864,883.50	

On October 28, 2025, our City staff, the design team (GPD Group & Elena Andrews) and Double Z Construction's representatives met in City Hall for a post bid meeting. After a question-and-answer session between the parties, as well as a review of the scope, all who attended felt confident moving forward with the project.

I am recommending that the City of Bexley move forward with executing a purchase order & contract for Double Z Construction in the amount of \$1,319,897.60 in order to execute the Schneider Park Pedestrian Bridge project.

Should have any questions, please do not hesitate to call or email me.

Respectfully submitted,

Matt Klingler
Director of Building and Zoning
