• Body Art –

Franklin County Public Health currently licenses 99 body art facilities. The licensing period is from January 1, 2024, through December 31, 2024. Body art includes traditional tattoo and body piercing, but it also includes permanent make-up or reconstructive procedures such as microblading, micro-needling, scalp micropigmentation, and scar camouflage. FCPH licenses two tattoo businesses in Bexley, both of which perform permanent makeup and/or reconstructive procedures. FCPH inspects body art facilities at least once during the licensing period. One standard inspection was conducted in the third quarter of 2024 and is listed below:

Date	Facility
09/20/2024	Plush Beauty

• Vector Control –

Over 150 traps are set throughout Franklin County each week. Bexley is divided into two zones which are listed in the table below with total mosquitos collected for West Nile Virus (WNV) testing. The numbers in the table reflect only female mosquitos. This is because only female mosquitos bite and are capable of transmitting WNV. As mosquitos test positive for WNV, the area is treated to reduce the number of adult mosquitos. Bexley is divided into two zones, Bexley North and Bexley South, as listed in the table below.

Zone	Total Mosquitos Collected and Tested	WNV+ Pools	ULV truck sprays
Bexley North	689	3	3
Bexley South	1,072	8	5
