

INTERGOVERNMENTAL AGREEMENT FOR FIRE AND EMERGENCY SERVICES

The City of Columbus, Ohio (“Columbus”) and the City of Bexley, Ohio (“Bexley”) enter this contract for Columbus to provide fire protection and emergency medical services to Bexley.

WHEREAS, Columbus provides fire protection and emergency medical services to municipalities such as Bexley; and

WHEREAS, by Ordinance No. _____, passed by the Council of the City of Bexley, the Mayor of the City of Bexley is authorized to contract with Columbus for fire protection and emergency medical services;

NOW THEREFORE,

For consideration hereinafter named, Columbus agrees that the Department of Public Safety, Division of Fire (“CFD”) will answer fire calls from Bexley and its inhabitants and send fire apparatus and firefighters thereto for the purpose of extinguishing fire and providing emergency medical services in Bexley in like manner as fire calls are answered and fires extinguished and emergency medical services are provided in Columbus for a period of five years beginning January 1, 2024, and ending December 31, 2028.

Columbus shall furnish a description of the annual cost to Bexley no later than the second week of January each year. This information may be furnished earlier depending on the enactment of salary ordinances. Payment shall be sent to Columbus’ Director of Public Safety. Notification of a payment due will be sent to the Auditor of Bexley at least 15 days prior to the due date.

It is further understood and agreed that in no case shall Columbus be liable in damages to Bexley, or any of its inhabitants, for the failure to answer any fire call; failure to answer or respond to any call for emergency medical service; lack of speed in answering such calls; inadequacy of equipment; negligent operation of apparatus or medical equipment; failure to extinguish any fire; for any cause whatsoever growing out of this Contract; or the use of fire equipment, medical aid equipment, and personnel of Columbus.

In consideration of providing the above services, Bexley agrees to pay Columbus semi-annually on April 1 and October 1 of each year covered by this Contract. Each semi-annual payment shall be 50% of the annual rate which will be based on the formula set forth in this Contract. The cost to Bexley for each year covered by this Contract shall be the cost of manpower for one engine company, plus 1/20 of the cost of an engine, which represents depreciation of the engine, plus that year’s average fuel and maintenance cost for one engine as estimated by the Columbus Division of Fire, Bureau of Support Services.

The cost of manpower for one engine company shall be the salaries fringe benefits rates as of January 1, projected for pay periods of that year, for 12 firefighters, 2 lieutenants, and 1 captain (15 total fire personnel). Fringe benefits may include, but are not limited to: holiday pay, insurance, pension, and worker’s compensation. Salary and/or benefit changes which may occur during each

year due to salary ordinances will not affect the annual cost for that year because manpower cost is limited to the rates in effect as of January 1 of that contract year.

Finally, Bexley understands that Columbus will seek reimbursement from the private insurance carriers, Medicare, or Medicaid of individuals who have been transported for emergency medical services. It is understood and agreed by Bexley and Columbus that Columbus shall retain the full amount of any such reimbursement received for emergency medical services provided.
