CITY OF BEXLEY EMAIL COMMUNICATION SYSTEM

Coming in Early 2026: "Sewer Things"

We haven't been able to come up with a date that works for everyone for the sewer informational workshop, so we'll be splitting the workshop into a series of smaller parts over upcoming council meetings during administrative updates. The goal of these info sessions will be to provide a comprehensive lookback on sewer studies and work done to date prior to considering funding for continuing the update of the sewer plan in 2026. Look forward to the launch of the Sewer Things mini series in January, 2026!
