

t was great seeing you all on Tuesday.

1. Below are the notes from the meeting. In addition, I've PDF'd the document with notes as I had them when I slipped out a little early.

2. For those of you who were not at the meeting, we are discussing how to organize ourselves to be focused as a group on the identified priorities of the community, and individually on the priorities about which we feel the strongest interest or passion. I've endeavored to include in this document all of the names of the regular ESAC participants. If I have left you off pls let me know. Please take a look at the groups priorities, and let me know (if you haven't already) if there is a set of initiatives with which you would like to be directly involved. It is also OK if you wish to remain a generalist. At our next meeting we would like to 'force rank' the listed priorities in each grouping, and begin to associate with them planned implementation / action and timing.

3. NEW MEMBER FAQ DOCUMENT - In anticipation of new members who will join the ESAC throughout 2023 we would like to put together a short document providing a brief history and detail around the initiatives we frequently include on the agenda and about which we provide updates. If you know yourself to be a subject matter expert on one or more of these, would you pls send me a few sentence summary which you feel would be helpful to a brand new future member. I'll compile these and include them as an attachment for future meetings. I'll plan to begin this starting in April.

Thank you all!!

AGENDA: 02/21/2023

Welcome new attendees: Jay Moses!!!

Next meeting is 3/21/2023

Present: Steve Grossman, Corey Baker, Kathy Hayden, Elizabeth Ellman, Lesli Mautz, Joann Grossman, Rebecca Ness, Midge Cull, Lisa Goldsand, Addison Helon, Jeremy Handler

UPDATES:

MORPC march meeting postponed (was scheduled for 3/2). Those who wish to join pls use the doodle provided by Brian Filiatraut.

Bexley schools - (Addison) litter pick up at Wolfe park at 4pm on Saturday, 2/25. Food composting - middle school students starting their pilot next week. Addendum has been added to the city's contract to include additional toter costing available to BMS. Pilot will take place for one week. Alina Lacki working on educational video on composting as

part of her global scholars program. High school also has a pilot planned. Eventually will present results to the district. Hope is to have composting school wide starting fall of 2023.

CSG - Corey Baker - adults are often driving / supporting the food composting sorting activities.

City of Bexley - Elizabeth Ellman -

- Universal recycling RFP in progress
- Single Use Plastics ordinance update
- CAP - Meeting with OSU EEDS students (stationary combustion, mobile combustion, electricity)
- One Earth One Trillion Trees Event 4/22 - EE needs additional volunteers to support. PLEASE LET EE KNOW IF INTERESTED / AVAILABLE
- SWACO - Save more than food campaign
- Local restaurant composting - change in funding for certain restaurants; competitive rates negotiated on behalf of businesses by EE. Pilot for restaurants who have not yet participated. \$15/week is the negotiated price.
- Federal funds associated with inflation reduction act - City's plans to access funds tbd.
- Sam Metcalf has left. Working on go forward plan.
- Infrastructure proposal for Cassingham under discussion - associated with safe travel for kids.

ESAC - Proposed Priorities for 2023 and 2024
