Re: 81 N. Drexel Avenue

Dear Bexley Tree and Public Garden Commissioners,

As the landscape design firm for 81 N. Drexel Avenue, we have provided a tall, dense, row of evergreen screening for the entire length of the western property line. We are confident that these trees will provide ample coverage for privacy. The screening is comprised of a mixture of evergreens including Norway spruce and Arborvitae. These trees were selected as they hold their lower branches over time which will ensure enduring privacy.

Sincerely,

A handwritten signature in black ink that reads 'Kathryn Herman'.

Kathryn Herman
