## Property Tax Reform at the Statehouse update

Five major pieces of legislation are working through the statehouse to reform property taxes, particularly targetting levies that float with property values.

Three major themes:

- Slowing automatic tax increases
- Increasing predictability and transparency - valuation, certification, levy behavior
- Shifting more control to statewide standards

HB 124 - going to Governor for signature - largely technical bill that makes adjustments to how property tax ratios are applied / standardizes evaluation processes

HB 129 - Passed House on bi-partisan basis - adjusts how school district's calculate millage floor, and

HB 309 - Passed House - County budget commissions - restructures authorities, review responsibilities

HB 186 - Passed House on bi-partisan basis - addresses rising SD property taxes by placing caps on growth caused by rapid property valuation appreciation

HB 335 - Passed House - limits the inside millage revenue growth

## Water and Sewer Rate Increases

Last week, The Columbus Dispatch reported on the significant 2026 water and sewer rate increases being proposed to Columbus City Council. As a master meter community, Bexley purchases our water from Columbus and passes along their rates which means that when their rate increases, our rate increases.

With an 18% water rate and 8% sewer rate increase proposed, we know news like this can understandably cause concern for Bexley households. That's why Bexley is taking steps to soften the impact for our community by proposing reduced increases of 15% for water and 6% for sewer in the 2026 Budget revision being reviewed today.

## Tree Commission Working Group

The Tree Commission Ordinance Working Group met yesterday and continues to work on honing concepts for the upcoming proposed revisions to the group of Tree Commission code sections. Our next meeting is in December, and will focus on continuing to thinking through roles and responsibilities for parks and public space plantings, as well as exploring expanded regulations regarding tree removal on private property.
