

# 2026 CAPITAL BUDGET DETAIL

**Project Title:** Speed Warning Trailer (Slow Down Bexley)

**Department:** Police

**Total Request:** \$33,064

## Project Description:

This project funds the purchase of one fully functional mobile speed warning trailer equipped with an integrated speed warning system.

The primary vendor is All Traffic Solutions which would provide the trailer, solar charging components, and mounting kits. The above stated cost also includes speed camera components and access to cloud-based software from vendor Traffic Logix.

This new trailer will aid the Police Department in implementing the new Slow Down Bexley initiative through a high-visibility reminder to drivers to monitor speeds, as well as with direct mailed speed warnings for those driving above posted speed limits.

Additionally, the Police Department intends to outfit this trailer with a Flock camera to assist in ongoing crime response efforts.
