## The Bexley Patio Designated Outdoor Refreshment Area (DORA) concept

Since discussing this in the spring of last year with Council, Matt Klingler and I have been working on advancing the concept and are readying an application to bring to Council. A draft of the application is attached to the agenda.

Next steps are:

- Mayor files a formal application with Council - aiming for February 9th
- Ordinance approving application is introduced concurrently
- Public notice of application is published for two consecutive weeks (middle-end Feb)
- A public hearing is scheduled (targeting March 9th)
- Council votes on ordinance (March 9 or 23rd)
- If approved, City notifies State Division of Liquor Control
- Signage and initial round of DORA cups are ordered
- DORA can go into effect by mid to late April

## Joint Livingston Avenue Plan Update

We met with Columbus representatives and selected the winning bid for the Joint Livingston Avenue plan. NBBJ will be assisting the cities with the plan.

The project schedule will look something like this:

### **Phase 1: Information Gathering (2 months)**

Inventory and analysis

Visioning  
Stakeholder interviews  
Steering committee launch

**Phase 2: Draft Design (4 months)**

Confirm findings  
Preliminary vision and challenges  
Develop concepts  
Concept exhibits  
Refine draft concepts  
Draft final plan

**Phase 3: Final Plan and Delivery (5 months)**

Refine draft final plan  
Finalize plan  
Final plan report and deliverables

Based upon a February launch, the plan is anticipated to be ready for review and adoption by City Council in December 2021 to January 2022

## Residential Sewer Remediation Program Launch Update

- Program goes into effect at the middle of February
- Our team has been meeting and working on inspection forms, applications, and fact sheets
- Due to launch the program to the public upon the Ordinance going into effect

# COVID-19 QUICK STATS

**746,398**

**Confirmed Cases  
in Ohio (to date)**

**100,046**

**Confirmed Cases  
in Franklin Co. (to date)**

**704**

**Confirmed Cases  
in Bexley (to date)**

**83**

**New Cases in Bexley  
in the Past 14 Days**

**579.53**

**Franklin Co. 2-Week  
Incidence Rate per  
100,000**

**617.6**

**Bexley's 2-Week  
Incidence Rate per  
100,000\*\***

Based on information from Franklin County Public Health, Columbus Public Health, and Ohio Department of Health.

\*\* The 2-week incidence rate in Bexley is pulled from the COVID-19 Analytics and Targeted Surveillance System for Schools (CATS) report. This is a collaborative report between the OSU College of Public Health, Franklin County Public Health, Columbus Public Health, and various school districts, designed to inform about emerging local trends in COVID-19 cases. A 2-week incidence rate includes all cases reported over a 14-day time period per 100,000 people.

**FRANKLIN CO. ADVISORY LEVEL:**
