

Jill Bisping

Hi Bexley City Council! I'm writing to ask that when you vote to place the changes to the city charter on the ballot, you leave the wording as the charter committee has written it, especially the first sentence of the first paragraph. The first sentence is a powerful statement that Bexley is committed to facing the history of systemic racism that has benefited so many but harmed so many others, and it speaks to Bexley's intent to enact change moving forward. Please keep the wording in the proposed charter amendments exactly as the committee has submitted it to you. Thank you!
