Good morning truest of public servants!

Mike and I would like to make comment on an issue pending before council. Do to personal and business relationships with the persons involved we are writing to find out if we can submit comment to council, but ask that our names be withheld if the comment is to be recorded or read in public. We do cringe when any statement includes " anonymous sources" but yet here we are asking the question, we look forward to your response. Again, thank you for your tireless dedication to make Bexley a great place to live.

Respectfully,

Lesli Mautz
