I am not in favor of either option for bike lanes on Drexel. I am an avid cyclist and would never ride on Drexel south of Broad -- or Broad, Main, and Cassidy. If I had children, I would not allow them to ride there either, with or without bike lanes. There are more than enough much safer options. Bike lanes on Drexel would not make it safer than any of the others.

The Columbus bikeway implementation is a total failure. We should not duplicate it.
