My husband and I are totally against changing traffic on S .Drexel. A bike path is ridiculous. I very rarely see bikers on the street. The side streets are a better place to bike. Leave our street the way it is .I do not understand why you want parked cars on one side only. Years ago when there were problems with parking on Main St and a need for a public lot, it was swept under the rug. Businesses need a place to park... Put your efforts there. Leave our street alone .Roni and Bary Leeman
