Good Morning!

As a south resident I realize this doesn't directly impact my front yard, but I wanted to write in support of the bike lane. I live in South Cassingham where parking is only available on one side of the street. Multiple houses in South actually have no garage or access to a driveway and somehow we are able to make this work! My husband and I support the bike lane!

As a resident of the City of Bexley, I'm writing to support **Option B** of the City's efforts to improve Drexel Avenue. Option B would improve access and safety for all roadway users, including for people who walk and bike frequently along the corridor. Improving the corridor for people who walk and bike will also improve the safety for street users, including drivers.

Adding protected bike lanes would not only make Bexley a leader in bike infrastructure in central Ohio but would create a dramatic improvement in safety and comfort for adults and children riding bikes on Drexel Avenue.

Sarah and Steve Johnson

735 south cassingham
