

ORDINANCE NO. 47-04

By: Mr. McClelland

An Ordinance to authorize the Mayor and Auditor to enter into a contract with EMH&T for professional services needed to design and bid a 12" water main to be installed in Main Street from Parkview to Euclaire, and to appropriate \$7,000.00 from the unencumbered Water Fund to fund such services, and to declare an emergency.

Whereas, the City has determined that a 12" water main is needed in Main Street from Parkview to Euclaire to provide service to projected development in the area; and,

Whereas, the City has a unique opportunity to install the water line in the same trench as the proposed 66" storm line that is scheduled to be installed from Parkview to Euclaire, thereby realizing significant savings; and,

Whereas, the City will share the cost of the installation with the developers of the proposed projects. **NOW, THEREFORE,**

**BE IT ORDAINED BY THE COUNCIL OF THE CITY OF BEXLEY, OHIO:**

Section 1. That the amount of \$7,000.00 should be and hereby is appropriated from the unencumbered Water Fund for the purpose of designing and bidding a 12" water main from Parkview to Euclaire.

Section 2. That the Mayor and Auditor should be and hereby are authorized to enter into a contract with EMH&T to provide professional services needed to design and bid a 12" water main to be installed in Main Street from Parkview to Euclaire.

Section 3. That this Ordinance is an emergency ordinance, said emergency being the need to bid the water line at the same time as the Main Street Storm Sewer Project, and shall go into effect upon its signature by the Mayor.

Passed: 6-22, 2004

John B. Paly  
President of Council

Bexley, Ohio 43209

**Re: Proposed 12-inch Water Main  
Parkview to Euclare**

Dear Ms. Pritchard:

As follow up to our discussion of June 10 and 11, 2004, we are pleased to submit this proposal for the addition of a 12-inch water main to the plans being completed for the Main Street Storm Sewer Project. The work associated with this project includes:

1. Coordinate the design with public and private utilities in the project areas. This will include submitting both the Preliminary and Final Plans to utility owners and attending utility coordination meetings.
2. Prepare detailed plans, including alignments and profiles, for the project in accordance with the design standards prescribed by the City of Bexley. These plans will include the following: maintenance of traffic plans and notes, quantities, and soil erosion and sedimentation control plans.
3. Prepare two (2) construction cost estimates; the first will be included with the Preliminary Design submission and the second with the Final Design submission.
4. Assistance during bidding; including evaluation of bids and preparation of the bid tab. The proposed water line will be bid simultaneously with the storm sewer, but with a separate line item for ease of tracking in terms of the OPWC grant/loan.

The Scope of Work does not include any inspection services during the construction phase, any efforts subsequent to the awarding of the Contract, any easement descriptions or exhibits, nor filing fees.

Fees for the work described within the Scope of Services shall not exceed \$7,000.00 (Seven Thousand Dollars and no cents) without prior authorization from the City. Invoices will be submitted monthly based on the progress of the work and are payable on receipt.

It is understood that the Client hereby grants EMH&T, Inc., or represents and warrants (if the site is not owned by the Client) that permission has been duly granted for a Right-of-Entry by firm, agents, staff, consultants and subcontractors, for the purpose of obtaining field information pertinent to the

subject project. We will assist the City, if necessary, in their effort to distribute a notice to any property owners affected by the above mentioned work.

Sincerely,

EVANS, MECHWART, HAMBLETON & TILTON, INC.
