Comments <i>(Italicized comments are from previous review)</i>	
1a	<i>Please provide application on line.</i> Provided.
1b	<i>Please provide project description on line.</i> Provided.
3a	Please provide existing photographs for reference.
4g	<i>Please explain why the (3) existing trees around the micropool in the Community Garden will be removed.</i> The trees are being removed because the Police Department complained they could not see the area with the trees and EMHT felt they would not survive after construction because the water level will be higher in the root zone.
